

Modes of Transportation

<p style="text-align: center;">Image</p> <p>Look at the Picture. Describe it. What do they tell us about transportation?</p>	<p style="text-align: center;">Method</p> <p>What mode of transportation is being depicted by these objects?</p>	<p style="text-align: center;">Advantages</p> <p>What are the strengths of this mode of transportation? What freedoms do you have? What luxuries and comforts exist? Why is this a preferred method of travel?</p>	<p style="text-align: center;">Disadvantages</p> <p>What are the weaknesses of this mode of transportation? What limitations does this have? How will it impact your travel experience? What are the costs?</p>	<p style="text-align: center;">Speed</p> <p>Depict the speed of travel for each mode of transportation by cutting an inch of yarn for every two miles per hour traveled.</p>
 <p style="text-align: center;">By Foot</p>				<p style="text-align: center;">3 Miles Per Hour</p> <p style="text-align: center;">$3/2 = 1.5$ Inches of Yarn</p>
 <p style="text-align: center;">By Horse</p>				<p style="text-align: center;">15 Miles Per Hour</p>
 <p style="text-align: center;">Train Car</p>				<p style="text-align: center;">33 Miles Per Hour</p>
